**STANDARD GUARANTEE OF AMERICAN SHORTHORN  
BREEDERS' ASSOCIATION**

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders provided they are not allowed to serve when under 14 months of age or allowed to run with herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of the date of purchase or by the time the bull is twenty months of age if purchased under fourteen months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee, the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's Disease of the state or country into which they may be shipped.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipments will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off.

Here is a typical group of females that can be found in the Tudor Bros. herd. You will notice that in this catalog there are twelve animals consigned by this establishment, all of which are of real herd building calibre. Buyers can afford to travel long distances to see this exceptional offering.

The Columbus Grove area has become known as a section of well bred, modern type, quality Shorthorns. This annual event, the Columbus Grove Short-horn Breeders' Sale, has continually grown in strength and the 1948 offering is by far superior to any in the past. Featured in the sale are the get and service of the many young herd bulls now in service in Ohio herds. After receiving this copy of the catalog we sincerely hope that you will study each pedigree and then plan to attend the event to see the individual animals. You will be impressed by their quality and you can be assured that these cattle are just the kind upon which to build the best of herds. The herd bulls that are the sires of this offering have been considered by many expert judges to be the greatest concentration of young herd bulls in any like area in the United States.

The sale is being held on Friday, October 15, which will give visitors a good opportunity to spend some time in the Columbus Grove area visiting the herds on Thursday previous to the sale or on Saturday after the sale. Each consignor has dug deep into his herd in order to make this choice consignment sale. Included are beautiful foundation females that are designed for rapid progress of the Shorthorn breed. There will be both bred and open heifers in the offering. The eighteen bulls are a choice lot, being well bred and in excellent breeding condition.

The largest consignor to this sale is Tudor Bros. of Columbus Grove. Their offering consists of nine exceptionally thick, deep bodied, modern type females and three select herd sire prospects.
